Identification of Children with Disabilities

STUDENT ENROLLMENT, AGES 6 THROUGH 21

Student Category	State Students (#)	State Students (%)	Nation Students (#)	Nation Students (%)
All students	1,541,824		45,320,981	
Children with disabilities (IDEA)	178,323	11.6	5,944,241	13.1

Explanatory Note: The number of total students enrolled in public schools in the state and nation as of October 1, 2013 (or the closest day to October 1) for all grade levels from grade 1 through grade 12, as well as ungraded. The number and percentage of children with disabilities (IDEA) in the state and nation as of the state-designated child count date (between October 1 and December 1, 2014). Children with disabilities (IDEA) are served by the Individuals with Disabilities Education Act (IDEA). Data reported for IDEA 2014 Child Count and Educational Environments and the SY 2013-14 Common Core of Data (CCD). National IDEA Child Count and Educational Environments data represent the US, Outlying Areas, and Freely Associated States and the national CCD data represent the US and Outlying Areas.

6 through 21	7.5	7.7	7.9	8.9

Explanatory Note: The percentage of the population who are children with disabilities (IDEA) in the state and nation as of the state designated special education child count date, for the age ranges of 3 through 5 and 6 through 21. Data reported for IDEA Child Count and Educational Environments and Census. National IDEA Child Count and Educational Environments data represent the US, Outlying Areas, and Freely Associated States and national Census data represent the 50 states and DC (including BIE).

Explanatory Note: The percentage of enrollees who are children with disabilities (IDEA), by disability category, in the state and nation for the age range of 6 through 21 (excluding children reported in the category of developmental delays). For this calculation, the numerator is the number of children with disabilities (IDEA) in a specific disability category as of the state-designated special education child count date (between October 1 and December 1, 2014) for ages 6 through 21 (excluding children reported in the category of developmental delays) and the denominator is the total number of students enrolled in public schools as of October 1, 2013 (or the closest school day to October 1) for all grade levels from grade 1 through grade 12, as well as ungraded. Data reported for IDEA 2014 Child Count and Educational Environments and SY 2013-14 CCD. National IDEA Child Count data represent the US, Outlying Areas, and Freely Associated States and national CCD data represent US and Outlying Areas.

*Developmental delay is only allowable through age 9, so a 6-21 percentage cannot be calculated.

Explanatory Note: The percentage represents a distribution of children with disabilities (IDEA) by disability category for age ranges 3 through 5 and 6 through 21 (excluding children reported in the category of developmental delays). For this calculation, the denominator is all children with disabilities (IDEA) for the specified age range, excluding developmental delays for ages 6 through 21. Data reported for IDEA 2014 Child Count and Educational Environments. National data represent the US, Outlying Areas, and Freely Associated States.

Percent of Time Spent Inside the Regular Classroom

Explanatory Note: The percentage of children with disabilities (IDEA) in the state and nation by disability category (excluding children with developmental delays) attending regular classrooms, or separate schools and residential facilities. Note that this table does not include all reported educational environment categories. The denominator is all children with disabilities (IDEA), ages 6 through 21 (excluding children with developmental delays), in a specified disability category. Data reported for IDEA 2014 Child Count and Educational Environments. National data represent the US, Outlying Areas, and Freely Associated States.

Participation and Performance on Assessments

High school mathematics	89	4	6		

PARTICIPATION OF CHILDREN WITH DISABILITIES (IDEA) IN STATEWIDE ASSESSMENTS

Explanatory Note: The percentage of children with disabilities (IDEA) who participated in statewide assessments for reading and mathematics for 4th grade, 8th grade, and high school. The denominator is the sum of children with disabilities (IDEA) who participated and children with disabilities (IDEA) who did not participate in statewide assessments (excluding those with a significant medical emergency who did not take the assessment). Due to differences in the calculations used for the "children with disabilities (IDEA)" subgroup,

these percentages may differ from those reported for the CSPR. Data reported for 2014-15 Assessment, accessed from EDFacts on April 13, 2016.

Participation data submitted by the following states/ entities were flagged due to questionable data quality in one or more subject areas, grades, and assessment types: AS, IN, MS, MT, NV, and WY.

PERFORMANCE ON STATEWIDE ASSESSMENTS

Grade and Subject Assessed	Proficient (%) General Assessment (CWD)	Proficient (%) Alternate Assessment (CWD)	Proficient (%) General Assessment (All Students)
4th grade reading/language arts	12	84	37
8th grade reading/language arts	7	85	39
High school reading/language arts	6	100	36
4th grade mathematics	15	81	40
8th grade mathematics	8	86	37
High school mathematics	7	100	33

Explanatory Note: The percentage of students in the state who scored at or above proficient (as determined by each state) on the general assessment for all students and children with disabilities (IDEA) in 4th grade, 8th grade, and high school, and the percentage of children with disabilities (IDEA) in the state who scored at or above proficient (as determined by each state) on the alternate assessment.

Due to differences in the calculations used for the "all students" and "children with disabilities (IDEA)" subgroup, these percentages may differ from those reported for the CSPR. Data reported for 2014-15 Assessment, accessed from EDFacts on April 13, 2016.

Achievement data submitted by the following states/ entities were flagged due to questionable data quality in one or more subject areas, grades, and assessment types: AS, IN, MH, MT, and NV.

PERFORMANCE ON 2015 NAEP ASSESSMENTS

Grade and Subject Assessed	At or Above (%) Basic (CWD)	At or Above (%) Basic (Non-CWD)	At or Above (%) Proficient (CWD)	At or Above (%) Proficient (Non- CWD)
4th grade reading/language arts	36	71	16	35
8th grade reading/language arts	30	77	4	32
4th grade mathematics	47	82	13	37
8th grade mathematics	26	72	4	31

Explanatory Note: The percentage of students in the state who scored at or above the Basic level and at or above the Proficient level on the National Assessment of Educational Progress (NAEP), for children with disabilities (IDEA) and children without disabilities. Since the NAEP is administered every other year, the percentages reported in this table will remain consistent for a two-year period of time. Elementary and Secondary Education Act (ESEA) requires states that receive Title I funding to participate in the state NAEP in reading and mathematics at grades 4 and 8 every two years. State NAEP does not provide individual scores for the students or schools assessed. Instead, NAEP provides results about subject-matter achievement, instructional experiences, and school environment, and reports these results for populations of students (e.g., fourth-graders) and subgroups of those populations (e.g., children with disabilities (IDEA)).

INCLUSION RATES FOR CHILDREN WITH DISABILITIES ON 2015 NAEP ASSESSMENTS

Grade and Subject Assessed	Inclusion Rate State (%)	Inclusion Rate Nation (%)
4th grade reading/language arts	71	87
8th grade reading/language arts	71	87
4th grade mathematics	89	89
8th grade mathematics	89	90

Explanatory Note: The percentage of students identified as having a disability who were included in the NAEP assessment. A state's inclusion rate of students identified as having a disability is the weighted percentage of students identified as having a disability in the state sampled by NAEP who participate in NAEP. In other words, the weighted number of students identified as having a disability in a state who are selected for participation in NAEP is in the denominator, the weighted number of those students who participate in NAEP is in the numerator, and the fraction is multiplied by 100 to turn it into a percentage.

National inclusion rates were based on figures available under "National (public)." Since the NAEP is administered every other year, the percentages reported in this table will remain consistent for a two-year period of time.

The numerator is the number of children with disabilities (IDEA), ages 6 through 21, in a particular disability category and race/ethnicity category as of the state designated child count date (between October 1 and December 1, 2014) and the denominator is the total number of children with disabilities (IDEA), ages 6 through 21, in a particular disability category. The "All Student" row is calculated using the total number of students enrolled in public schools in grade 1 through grade 12, as well as ungraded, in the state as of October 1, 2013 (or the closest day to October 1). Data reported for IDEA 2014 Child Count and SY 2013-14 CCD.
